PROFESSIONAL SUMMARY

Computer Science student at the University of Sindh with a focus on modern web development and AI. I build responsive, polished web applications with HTML5, modern CSS and Tailwind, JavaScript, TypeScript and Next.js, and I design effective prompts for leading AI models including ChatGPT, Google Gemini and Anthropic Claude. I enjoy turning real business needs into practical software that is built module by module and shipped steadily.

TECHNICAL SKILLS

Web Development	HTML5, modern CSS, Tailwind CSS, JavaScript, TypeScript, frontend frameworks, Next.js
Backend and Data	Supabase
AI and Prompt Engineering	Prompt design and refinement for ChatGPT, Google Gemini and Anthropic Claude; AI-assisted development workflows
Tools	Git and GitHub

PROJECTS

Bright Future School Management and Fee Management System
Next.js, Supabase, TypeScript
A school management platform with fee management, built module by module on a solid foundation.

Lumora Academy Website
A website and UI for a home tutoring academy, built incrementally with features added one at a time.

The Success School System Website
A website roadmap for a school, covering the site's structure and planned features.

Interactive Personal Portfolio
A portfolio with animated skill bars, transparent blurred glass sections and a round reveal profile photo.

EDUCATION

Bachelor of Science in Computer Science (BS CS)
University of Sindh, 2023 – 2027

SPECIALIZATIONS

- Prompt Engineering (ChatGPT, Google Gemini, Anthropic Claude)
- Full-stack and modern web development
